ODE TO NCU

Founded in Nanjing, NCU, a great university of a grand country, remains unshaken after countless tempests. Moving to Taiwan across the ocean, NCU stands the test of time and lays a permanent foundation. NCU, you sowed the seeds of civilization for contemporary society, and now they are trees with luxuriant blossoms and lush foliage. NCU, you accomplish the scientific achievements for the world, and now the world feasts on the fruits you grow. The universe is immense; we shall keep forging ahead. Knowledge has no border; we shall keep exploring the truth with determination. The heritage of five thousand years has to be inherited for the tradition is time-honored. The merit of opening up one hundred thousand miles ought to be admired for the achievement is heroic. NCU, you spare no effort to educate Chinese youths; you gather guests and friends from five continents to maximize the enjoyment. NCU, how splendid that you conserve the grand uprightness, and how sublime that you cultivate the best of human elites. Your teaching is as enlightening as evening drums and morning bells in temples, and your wisdom as inspiring as the vibrant sounds of metal and jade. Alterations alter with regularity; good deeds find no limit. Shining as the sun and the moon in the middle of the sky and holding Heaven and Earth in my palm, we shall vow to be the master of our own life. Millions of students receive favorable education and thus billions of citizens could achieve self-fulfillment. Hail NCU and praise our motherland. Hail our alma mater and may we be blessed.

24 Traffic Information
All Roads Lead to NCU
National Central University (NCU), originally founded in 1915 in Nanjing, was an academic center in south-east mainland and enjoyed equal prestige to Peking University. In 1962, NCU was re-established in Taiwan. After our endeavor over the past 50 years, NCU, with its glorious history, beautiful campus, school spirit, and high reputation, has become one of the leading research-oriented universities in Taiwan.

Located on Shuanglianpo, Zhongli, away from the busy city, NCU provides a quiet place for living, pursuing knowledge, and doing research. We have more than 12,000 students, and the ratio of undergraduates to graduates is about 1:1. Till now, our alumni are more than 60,000 people; all of them are elites in diverse fields and making great contributions to the society. When walking on NCU campus, you will find carpet-like grass, shadows formed by green pines, and our majestic main gate, which all show the extraordinary of our university. With the favorable natural conditions and distinguished faculty members of NCU, students are well-educated and cultivated. As a result, brilliant students are coming out successively.

A world’s leading university is usually with its profound humanistic tradition, which is what NCU always aims for. We are making National Central University one of the world’s best universities, an excellent learning place for students, a pleasant working environment, a top university that society would be proud of, and a world-renowned university.

President Jing-Yang Jao
In 1949, ROC government moved to Taiwan. NCU was re-established as Graduate Institute of Geophysics in 1962 and later the School of Science in 1968. In 1979, NCU was finally officially established as a university. In the past century, NCU has been closely connected to the transformation of higher education and to the whole society and country.

---

1962 1968 2015

In response to the "International Geophysical Year," NCU was re-established and started from Earth Science in Erping Hill, Miaoli, Taiwan, in 1962. In 1968, NCU was reinstated and moved to Shuanglianpo, Zhongli. It is now one of the leading universities with outstanding academic and research accomplishments.

---

1979

In 1979, NCU was finally officially established as a university.

---

2015

In 2015, NCU was celebrating its centennial anniversary. In cooperation with other universities in China, NCU is ready for reaching the peak next century.
A Comprehensive University with Outstanding Academics and Research Centers

**College of Liberal Arts**
- Department of Chinese Literature
- Department of English
- Department of French Language and Literature
- Graduate Institute of Philosophy
- Graduate Institute of Art Studies
- Graduate Institute of Learning and Instruction
- International Program in Inter-Asia Cultural Studies (UST)

**College of Science**
- Joint Science Program, College of Science
- Department of Physics
- Department of Mathematics
- Department of Chemistry
- Graduate Institute of Statistics
- Department of Optics and Photonics
- Graduate Institute of Astronomy
- International Ph.D. Program in Photonics (UST)

**College of Engineering**
- Department of Chemical and Materials Engineering
- Department of Civil Engineering
- Department of Mechanical Engineering
- Graduate Institute of Energy Engineering
- Graduate Institute of Environmental Engineering
- Graduate Institute of Construction Engineering & Management
- Graduate Institute of Materials Science and Engineering
- International Environment Sustainable Development
- International Master Degree Program in Applied Materials Science

**School of Management**
- Department of Business Administration
- Department of Information Management
- Department of Finance
- Department of Economics
- Graduate Institute of Accounting
- Graduate Institute of Industrial Economics
- Graduate Institute of Human Resource Management
- Graduate Institute of Industrial Management

**College of Electrical Engineering and Computer Science**
- Department of Electrical Engineering
- Department of Computer Science & Information Engineering
- Department of Communication Engineering
- Graduate Institute of Network Learning Technology

**College of Earth Sciences**
- Department of Earth Sciences
- Department of Atmospheric Sciences
- Graduate Institute of Space Science
- Graduate Institute of Applied Geology
- Graduate Institute of Hydrological and Oceanic Sciences
- Taiwan International Graduate Program for Earth System Science

**College of Hakka Studies**
- Department of Hakka Language and Social Sciences
- Graduate Institute of Law and Government

**College of Health Science and Technology**
- Department of Life Science
- Graduate Institute of Cognitive Neurosciences
- Department of Biomedical Sciences and Engineering
- Interdisciplinary Neuroscience Ph.D. Degree Program (UST)

**Research Centers**
- Center for Space and Remote Sensing Research
- Optical Sciences Center
- Center for Environmental Studies
- Communication Research Center
- Humanities Center
- Research Center for Adaptive Data Analysis
- Research Center for Advanced Science and Technology
- United Research Centers
- Software Research Center
- Research Center for Hazard Mitigation and Prevention
- Research Center for Science and Technology for Learning
- GPS Science and Application Research Center
- Research Center for New Generation Photovoltaics
**Four Aspects of Basic Literacy for NCU Students**

- **Professional Literacy**
  - problem solving
  - critical thinking
  - creative thinking
  - lifelong learning

- **Academic Literacy**
  - communication and expression
  - team spirit
  - plan and management
  - assessment and evaluation

- **Interpersonal Literacy**
  - concern for humanity
  - multi-angle vision
  - sustainability
  - aesthetic appreciation

- **Career Literacy**
  - knowledge in every course area (general education and professional courses included)

**Motto:** Sincerity and simplicity

Sincerity in Knowledge; Simplicity in Life

“Sincerity and simplicity” is a motto of NCU. We hope all NCU people will keep this down-to-earth attitude toward their study and life. Sincerity means honesty and earnest, and Simplicity suggests being simple and modest. Instead of seeking fame and looking for shortcuts, we believe that sincerity and simplicity are the foundation of pursuing knowledge and interpersonal relations.

**School Spirit**

“Pine” is the symbol of NCU. In the alma mater in Nanjing has stood the “Ancient Pine” for more than a millennium, which signifies the long history of NCU and the unbending spirit of NCU.

The number of green pines on NCU campus is the top in Taiwan and they are also the treasure of NCU. Pallas’s squirrels jumping back and forth in the pine forest are the most adorable mascots on campus.

Those easy-to-get pine cones are the other symbol of NCU. The Teaching & Research Building and the Multi-functional Auditorium built for the centennial celebration are also designed as a “pine cone,” symbolizing knowledge cultivation and transmission.
Academic Research

Abundant Research Energy of NCU

NCU is one of the focal universities in “The Aim for the Top University Project” of the Ministry of Education and has made a great leap in academic research in recent years. We focus on four main fields: Environment and Energy, Complex Systems and Plasma Sciences, Optics and Opto-electronics, and Applied Informatics, and two featured fields: Humanities and Social Sciences and Biomedical Sciences. Regarding the research and development, NCU faculty and students have published approximately 1,800 journal papers, which is a 13 times growth in 25 years. The research funding also outgrows more than 14 times in 25 years, receiving grants around NT$ 2.0 billion every year. Concerning patents, from zero to many, more than 700 patents have been approved. The research achievement is outstanding.

Professors’ achievements are also admirable. We have professors who are academicians of Academia Sinica. We also have prizewinners of the following prizes and awards: Presidential Science Prize of Taiwan, Taiwan Outstanding Woman Scientist Award, National Professorship of the Ministry of Education, Outstanding Research Award of the Ministry of Science and Technology, National Invention and Creation Award of the Ministry of Economic Affairs, Academic Industrial Economic Contribution Award of the Ministry of Economic Affairs, and Outstanding Scholarship Award. Our outstanding faculty members are participating in various large-scale international research projects. The energy of NCU for research and development is strong and abundant.
Nobel Chairs: Standing on the Shoulders of Giants

Nobel Chairs on NCU campus, made of wood and carved on with stories of Nobel laureates and of great persons, are designed to encourage NCU people. Isaac Newton once said: "If I have seen further, it is by standing on the shoulders of giants.” Sit down on those Nobel Chairs and listen to the pine wave, you may get some brand-new ideas and inspiration.

The Smell of Humanistic Fragrance in the Air

Though traditionally known for its science and engineering, NCU puts great emphasis on general education and liberal arts. We hold various art exhibitions and performances on campus, creating a holistic learning environment.

NCU 107 Cinema Theatre

107 Cinema Theatre, renovated from the room 107 in the College of Liberal Arts, is the campus cinema at NCU. The Cinema is situated on the first floor of Humanities and Social Sciences Building and is equipped with professional screening devices and cozy seats, providing faculty and students with quality films.

Black Box Theatre

Founded in spring, 2012, Black Box Theatre is the first professional art group on university campus in Taiwan. The performance center with up-to-date equipment could accommodate audience up to 150 people. Through related courses and art performances, we demonstrate different facets of arts.

Art Exhibitions and Performances: Diversity and Splendor

NCU Art Center launches three exhibitions in every semester. It invites renowned artists to share their ideas of artistic creation and provides the staff and local residents with opportunities to participate in art activities. Performances, film screenings, art lectures, art visits and various seminars of extension education will also be held periodically to provide diverse and splendid feasts of art.

Aspire to the Way, Align with Virtue, Abide by Benevolence, and Immerse in the Arts

“Zhi-Dao Hall”, “Ju-De Hall”, “You-Yi Hall”, and “Yi-Reng Hall” are buildings for student clubs, activity center, and gym respectively. These buildings derive the names from a saying from Confucian Analects, which explains the ways to improve one’s virtues and knowledge. The establishment of the four halls brings out the spirit and philosophy of NCU.

The building was donated by CTCI Foundation for NT$200 million and completed in 1999.

The outlook of the building looks like the Chinese character of Kwoh-Ting’s “Ting,” 鼎

Kwoh-Ting Optoelectronics Building was donated by Bruce Cheng, founder and honorary chairman of Delta Electronics, in memory of Mr. Li Kwoh-Ting for his great contribution to Taiwan’s economy.

Former NCU president Lee Shin-Ming is remembered for tree planning, thus the flower path was re-named after him.

In 2012, Science Building #4 beside Zhong-Da Lake was re-named “Chien-Shiung Building” after Wu Chien-Shiung at the 100th anniversary of her birth.

Kwoh-Ting Library and Archives Complex

Dialogues across Centuries and Memorials to Masters

Strolling over NCU campus, you will find many buildings are named after our distinguished alumni. “Ping-Wen Hall” at the College of Earth Sciences is a memorial to former NCU president Guo Ping-Wen, “Zhi-Xi Building” a memorial to former NCU president Lo Jia-Lun, “Zhong-Zheng Library” a commemorative building for former ROC President Chiang Kai-shek, “Hong-Jing Building” at the Department of Mathematics a memorial to former NCU president Chow Hung-Ching, and “Kwoh-Ting Library and Archives Complex” and “Kwoh-Ting Optoelectronics Building” are memorials to NCU alumnus Li Kwoh-Ting, the Godfather of Technology, for his great contribution to Taiwan’s economy. Also, Science Building #4 beside Zhong-Da Lake was re-named “Chien-Shiung Building” after Wu Chien-Shiung at the 100th anniversary of her birth.

Ping-Wen Hall

Ping-Wen Hall is situated in the Sciences Building #1. The building is a memorial to former NCU president Guo Ping-Wen, and it is also the first building of NCU when relocated in Zhongli.

Zhi-Xi Building

Built in 1986, Zhi-Xi Building is the space for teaching and administration of the School of Management. It is named after former NCU president Lo Jia-Lun, whose courtesy name is Zhi-Xi.

Zhong-Zheng Library

Zhong-Zheng Library is a commemorative building for honorary NCU president, also former ROC President, Chiang Kai-shek. It was designed by NCU’s distinguished alumnus architect Chen Chi-Kwan.

Hong-Jing Building

Hong-Jing Building was built in 1992. It is a memorial to former NCU president Chow Hung-Ching for his lifetime dedication to NCU and to mathematical education.

Chien-Shiung Building

In 2012, Science Building #4 was officially re-named after the Chinese Madame Curie, Wu Chien-Shiung, at the 100th anniversary of her birth.

Shin-Ming Boulevard

Former NCU president Lee Shin-Ming is remembered for tree planning, thus the flower path was re-named after him.

Kwoh-Ting Optoelectronics Building

Kwoh-Ting Optoelectronics Building was donated by Bruce Cheng, founder and honorary chairman of Delta Electronics, in memory of Mr. Li Kwoh-Ting for his great contribution to Taiwan’s economy.
NCU endeavors to create an international campus and encourages students to have a global vision. The total number of our partner universities is up to 180, and students are welcome to apply for dual degree, exchange student program, and Chinese language learning program. In the meantime, NCU trains student ambassadors to increase students’ opportunities for international exchange.

The World is Flat, Learning without Borders

Instructors in universities are not simply teachers but also mentors in students’ lives. In 2011, NCU adopted “Special Mentoring System” to take better care of students. That is, based on their different needs, students may seek for help from mentors in various fields like “Career Consulting mentor,” “Dormitory Mentor,” “Service Learning Mentor,” “Mentor for Department,” and “Mentor for Physical Education.”

Complete Mentoring System

International Exchange

Service Learning and Volunteering

Through service learning, NCU intends to foster students’ civic competence in self-motivation, cooperation, and critical thinking. We regularly hold forums and workshops to equip our faculty and students with better knowledge about service learning. We also encourage students to learn actively and work in teams, pay attention to social issues, show their concerns to minorities, join community services, and further participate in international voluntary works and overseas social services.
The Beauty of NCU

Beauty of Nature on NCU campus

On NCU campus, various flowers bloom in every season. Cherry blossom trees donated by Japan Chuo University (Central University) whisper the coming of the spring; cotton-tree blooms on Zhongda Road passionately welcome all visitors; Azaleas are in full bloom along the school path, and white cedars and Chinese Fringe trees beside Zhong-Da Lake change and dance with seasons. Our campus is the best place for flower viewing and for strolling.

NCU is also a big ecological garden. You can hear frog chorus and cicadas chirping near the lotus pond, and birds are tweeting every morning. Don’t miss the chance to enjoy the beauty of nature and appreciate the bio-diversity at NCU!

Popular Shooting Spots for Taiwanese Idol Dramas

NCU is popular with drama shooting crews because of its beautiful campus. You can always see NCU in many Taiwanese idol dramas. Famous dramas such as Meteor Garden, Yamada Taro Monogatari, Peach Girl, Up on the Stage, True Love, In a Good Way, Autumn’s Concerto, My MVP Valentine, The Way We Were, Two Fathers, and Apple in Your Eye—to name just a few—all take scenes on NCU campus and attract many fans to visit NCU.

NCU is also a big ecological garden. You can hear frog chorus and cicadas chirping near the lotus pond, and birds are tweeting every morning. Don’t miss the chance to enjoy the beauty of nature and appreciate the bio-diversity at NCU!
Sustainable Development for a Better Tomorrow

NCU was the first university that made "sustainable development" one of the core school objectives for teaching and development. We have outstanding performances in the fields of Earth Sciences, Space Science, Satellite Remote Sensing, Hazard Mitigation and Prevention, and Astronomy, so is our environmental health and safety on campus, which has been internationally certified. NCU endeavors to make our campus a cozy and safe place for all staff, faculty, and students. To realize the idea of "sustainable development," NCU calls for a "Green Initiative" reformation and works on green teaching, green research, green campus, and green service. We hope to bring the ideas of "green environment" to every person and make NCU an iconic green university.

An Iconic Green University

In pursuit of sustainability, NCU puts emphasis on the relationship between humans and nature and examples are everywhere on campus. Humanities and Social Sciences Building, for instance, is certified and recognized “Gold Grade” in Green Building (EEWH of Taiwan). Green restaurants come onto campus to provide healthy dining. We also promote Green dormitories, starting from students’ everyday life and hope to have a butterfly effect.

Tree Adoption and Voluntary Service

NCU takes the initiative in tree adoption among other universities. We encourage local residents and communities to adopt trees on campus. Till now, more than 200 trees have been adopted, and members of NCU Voluntary Service Group are taking good care of those plants.

Green Restaurants: Promoting Healthy Dining Concepts

NCU promotes “Green Initiative” project and introduces healthy dining concepts in campus life. Green restaurants serve dishes with “less oil, low sodium, and more vegetables.” Accredited green restaurants will have a certification “G” logo, which derives from “Green.” NCU hopes to provide everyone with healthy diet and dedicate our effort to earth sustainability.
Traffic Information

All Roads Lead to NCU

No. 300, Zhongda Rd., Zhongli District, Taoyuan City 32001, Taiwan (R.O.C.)

Freeway No. 1 (Sun Yat-Sen Freeway)
To Jhongli, exit at Jhongli Interchange (62 km). Follow the direction sign to Xinwu, make a right turn on Sanmin Rd, turn left on Jhongheng Rd., and within 3 minutes you will reach Jhongda Rd. to the main gate.

Freeway No. 3 (Formosan Freeway)
After exiting at Dasi Interchange (62 km), use Provincial Highway No. 66 (direction: Guanyin) to connect to Freeway No.1. Then follow the instructions above to reach NCU.
