國立中央大學數學系 專題演講

主 講 人:吳恭儉教授 (國立成功大學數學系)

演講題目:Background perturbation of the linear

Boltzmann equation

演講茶會: 2022年12月08日(星期四) 3:30 p.m. ~ 4:00 p.m.

茶會地點:中央大學鴻經館M306

演講時間:2022年12月08日(星期四)4:00 p.m.~5:00 p.m.

演講地點:中央大學鴻經館M107

Abstract:

In this talk, we focus on the simplest kinetic equation, the so called linear Boltzmann equation, where the collision operator is hard potential with Grad cut-off assumption. We consider the solutions around two different global Maxwellians, and see the stability of the solution under the perturbation of the given background Maxwellians.
